

In spite of being on NJ's "Do Not Call" list for the past year and a half, I have gotten illegal calls from one number, namely 973-999-6081. Since Feb. 1, 2005, they have called once every day. I can't return their calls directly, but I am very disturbed by this. If the ban on other callers is lifted, my dinnertime and PMs will be ruined. PLEASE do not lift this ban. Its violators need to be punished for harrassment. They call and call and refuse to take "no" for an answer. The reason why I keep getting the calls I get is because I told them NOT to call me. They think they can disturb me seven days a week. If we rescind the blocked calls, my phone will be ringing off the hook. I always say NO to whatever they're pushing on me, but the calls really are a nuisance and an outright aggravation to an already overly-vexed life. PLEASE keep the telemarketers at bay. They are merciless. Thank you!
